Life After Power tells the stories of seven former presidents, from the Founding to today. Each changed history. Each offered lessons about how to decide what to do in the next chapter of life.

Jared Cohen explores the untold stories in the final chapters of these presidents' lives, offering a gripping and illuminating account of how they went from President of the United States one day, to ordinary citizens the next. He tells how they handled very human problems of ego, finances, and questions about their legacy and mortality. He shows how these men made history after they left the White House.
